Good manuscripts are... ALWAYS WELCOME

Over the years THE AMERICAN RIFLEMAN has enjoyed the enviable reputation of presenting the best in factual editorial material.

Some of this material is staff prepared—especially when the subject matter requires extensive technical research. In addition to the staff-written material each issue contains the work of at least a dozen NRA members who are interested in some phase of guns or shooting and have set their observations down on paper in an interesting and informative manner.

The individual who writes for THE RIFLEMAN must bear in mind that fact is the essence of all articles.

We are interested in new or novel methods and techniques of gun repair, gun maintenance, gun cabinet building, handloading, club formation, range building, clubhouse building and maintenance, sight mounting, conducting a match, scoring methods, prize awarding, publicity methods for local gun clubs, and any number of other solutions to problems that confront the average gun owner and user.

We purchase "fact" hunting pieces in which the emphasis is placed upon the arm, ammunition, gun equipment (sights, muzzle devices, etc.), and techniques of using them. A "fact" hunting article should contain some references to the reasons for the hunter having selected the equipment he did; some observations on how it served him, and, if possible, some performance data. The factual hunting article should be built around the equipment and the manner in which the individual uses it.

Before you send your article off to us, examine it critically. Ask yourself these questions: Would I be interested in reading this? Does it answer a need? Is it new or novel? Have I stayed on the subject I intended to cover and covered it as thoroughly as need be for the meaning of this article? Are the photographs or art work I am submitting with this manuscript suitable, both from the explanatory and mechanical standpoint? Is the material I am sending this magazine generally in line with their editorial requirements? If you can answer "yes" to these questions, your article is well on the way towards most favorable consideration. If you come up with a "no" to any of the questions re-examine some of those aspects and see what can be done to make a "no" into a "yes".

There is nothing we are more interested in than buying good editorial material.

If you are interested in full details, including rate of payment, just drop a post card to the Editor, THE AMERICAN RIFLEMAN, 1600 Rhode Island Ave., N.W., Washington, D.C., requesting a free copy of our "Writer's and Photographer's Guide".
